

English	Maths	PSHE
 <p>We will be reading Oh No, George! By Chris Houghton to start the half term. We will be exploring the illustrations to learn more about the characters and plot before writing our own story.</p> <p>We will continue our daily phonics lessons using Little Wandle. We read every day and share reading and library books at home each week.</p>	<p>EY MATHS Teaching Essential Number (Karen Wilding) Pupils who have previously worked through the NCETM reception maths mastering number project work will be looking at activities from Teaching Essential Number.</p> <p>NCETM Maths Mastering Number Project R-Y2 - pupils will continue to work on units from the mastering number project.</p>	<p>This half term we will continue our Zippy's Friends units. Unit 5 is all about change and loss. We will be talking about death during this unit of work and plan to visit a local cemetery with some of the pupils.</p> <p>We are also thinking about the rules that we have in school and around us and how these help.</p>
	Science	Art
	<p>Habitats and animals -  This half term will be focusing on 2 key statements::  I can identify things that are alive  I can match animals with their habitats</p> <p>We also have a very exciting science workshop who will be visiting school for a whole day of practical science activities  We will continue to observe seasonal change as we move from Spring to Summer.</p>	<p>It's all about collage this half term. The children will be having 2D shape experiences with a variety of different materials. We will be learning and practising techniques such as tessellation, mosaic and montage to create different effects and beginning to use key vocabulary such as texture, shape, form, pattern and mosaic The focus artist this half term will be Alma Woodsy Thomas.</p>
Understanding The World	<p style="text-align: center;"><b>Summer 1</b>  <b>Let's look closely at that.</b></p> <p style="text-align: center;">Vaisakh, Eid al-Fitr, Vesak, Shavuot, King Charles III Coronation</p>	Computing
<p>This half term UTW is linked closely to our science topic. We will be learning about The United Kingdom and England in our country study. We will use our observation and enquiry skills to find out more about the country (nation) we live in, as well as learning about the King's Coronation.</p>		<p>This half term we will be having a focus on data and data collection. The children will be collecting all types of data, weather, birthdays, pets, favourite colours, likes and dislikes and then as a whole class will look at different ways in which we can display our findings. We will continue to look at internet safety and the safe use of computing equipment.</p>
Forest School	PE	Cooking/and life skills
<p>As the weather starts to warm up in the forest we are hoping to see lots of changes to the environment and also the animal habitats that we have on our forest school site. We will be building dens and homes for not only humans but also from the different animals that use the site alongside us. (ducks, birds, mini beasts, small mammals etc) We are hoping to be able to cook some very basic food items on open fires and also use the kelly kettles to make warm drinks.</p>	<p>In PE our focus is on ball skills. We will be developing our skills kicking, passing, catching, throwing and striking different sized balls as we explore a variety of different sports and ways to move with a ball. .</p> <p>We will continue weekly yoga sessions with Kelly.</p> <p>This half term we also have a visiting dance troupe who will be teaching us all a new dance to perform as part of our King's Coronation celebration.</p>	<p>It's all about seasonal fruit and vegetables this half term. The children will be preparing, cooking and sampling a wide range of different fruits and vegetables.</p> <p>The knife skills we will be concentrating on this half term will be: chopping, peeling, and grating. As always we will continue to look at kitchen hygiene for both ourselves and the areas that we will be working in.</p>
