## Primary News

w/e 31<sup>st</sup> March 2021

### End of Spring Term

Pupils have really enjoyed the range of activities during the lead up to the Easter holidays. This has included learning through our half term theme 'Who Lives There?'. This week pupils have been learning about mass, volume and capacity through food technology making cheese straws. Within Clarendon our broad and balanced curriculum has been carefully

designed and mapped out to ensure coverage and progression. The rolling plan of topics gives varied contexts for learning and provides children with a range of rich and memorable learning experiences. Cross-curricular planning allows pupils to revisit content and provides further opportunities for overlearning.

Food technology, like many of our curriculum progression maps, uses the planning and assessment model advocated by the PSHE association with six clear progression stages. These enable us to break down learning

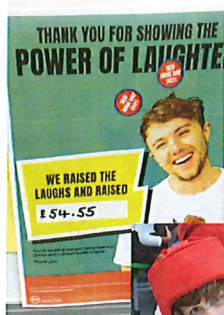

outcomes into smaller steps, revisiting, reinforcing, consolidating and generalising previous learning, as well as introducing new concepts. Targeted activities develop pupils' skills and understanding identified via the stage where they are, with clear next steps for progression.

## Comic Relief

Thank you to all the children, parents and staff who ensured that all pupils had fun on Red Nose Day, raising £54.55.

Pupils enjoyed dressing up and doing themed literacy Superhero activities and sharing their favourite stories.

## Fun at Forest School

Pupils have ventured off-site for Forest School recently. Galaxy class helped to put up the boundary rope and made bird feeders. Comets class explored Oxshott Woods, gathering materials for their dens. They demonstrated their skills back at school, building a den in the playground for everyone to enjoy.

If your child at Clarendon Primary tests positive for coronavirus over the Easter holidays please can you email [covid@clarendon.richmond.sch.uk](mailto:covid@clarendon.richmond.sch.uk) confirming their name, test date details and when they began to show symptoms. Please follow Government guidelines for self-isolation.

We hope you all have a relaxing and fun Easter break and we look forward to seeing your children back at Clarendon Primary on Monday 19<sup>th</sup> April.
